

Dear Drs. Levine and Lautin,

Thank you for the fabulous seminar. This note should have reached you much sooner; however I have just come up for air and am working on my marketing for Sculptra and Botox.

I will make sure APMA gets a letter regarding your seminar. I think the progressive podiatrists can definitely benefit from your lectures.

Thank you for sharing your knowledge with us, and I will keep you posted on my progress.

**Warm regards,
Pardis A. Kelly**
