

Dear Drs Levine, Laitin and Itenberg,

I just wanted to thank you for inviting me into your office last month. Although I have attended two previous IAFS seminars, which were very worthwhile experiences, it made such a difference to receive the individualized attention I had in your office and to see first hand how the aesthetic portion of your practice operates.

Dr. Levine, you have truly been an inspiration to me and I so appreciate your efforts to elevate our profession and share your knowledge. Thank you again for having me. I would highly recommend [your workshop] to anyone seriously wanting to add aesthetic medicine to their podiatry practice.
